Milne Bay, PNG is the epicentre of marine biodiversity with everything to see from exquisite critters to enormous schools of large pelagic fish. Join us on a unique opportunity to dive with PNG's most notable & famous diver—Bob Halstead. Inducted into the International Scuba Diving Hall of Fame in 2008, Bob started and developed the promotion of Papua New Guinea as a world-class diving destination and with wife Dinah, collectively they have dived over 15000 times in the pristine waters surrounding PNG.

Milne Bay is Bob's backyard—let him take you on an unforgettable diving adventure in arguably the best dive locations in the world.

See the very unusual and exquisite hairy ghost pipefish, the elusive mombasa lion fish, the seldom seen spihefia goby and the magnificent spanish dancer. Loads of different crustaceans can be found such as harlequin shrimp, boxer crabs, pebble crabs, winston churchill crabs, hairy crabs, daddy long-legs crabs, debelius shrimp and the beautiful rainbow manta shrimp.

The MV Febrina is an extremely comfortable boat in all ways, with a friendly and experienced crew providing top class service. Meals provided by a top class chef are plentiful and fresh, with lots of fruit and snacks between dives.
